

# *Increase Resilience to Climate Variability on Agricultural Lands*

Join us for a discussion to learn how climate variability is impacting South Carolina producers and opportunities for building resilience through adaptive management using resources from the USDA Southeast Climate Hub and partners. Discuss and share resources that will be helpful to your agricultural extension work.

## **Featured Speakers:**

**Dr. Hope Mizzell**

South Carolina State Climatologist  
South Carolina Department of Natural Resources

**Dr. Clyde Frassie**

Professor, Agrometeorology  
University of Florida

**Ashlynn Amon**

Climate Communications Resource Assistant  
USDA Southeast Climate Hub

March 27th 10:00-11:00 am EST
